

## A TIP FOR THE JOKERS.

Curious Man Wants to Know About Mingling of Languages.

"It's a funny thing," said the man with the bad cigar, who had been reading day before yesterday's paper.

"What's that?" asked the young man with the phenomenally short coat.

"Why, the way these fellows that write jokes for newspapers get things tangled up," replied the first seaker.

"How is that?" asked the long-legged young man.

"Why, look here," continued the man with the bad cigar warily. "Did you ever read a Dutch joke in the papers where two Germans are supposed to be talking to each other?"

"Sure I did," said the tall young man, yawning languidly.

"Well, did you ever notice that every time the guy that wrote the joke has them jabbering at each other in broken English? What do you think of this?"

He picked up the paper again and after hunting a few moments read as follows:

"Leberwurst—Heinrich, vy iss it ven you bock beer drink yet that you vant to yump alretty?"

"Schwarzkopf—Mayrie it iss vonce because die beer is mit hops filled up. No?"

"Now, that's a good thing, isn't it?" went on the man with the bad cigar.

"If those two Germans wanted to talk to each other, do you suppose they would amble around in broken English? No; they would spieel it out in German that they both understand.

Suppose you and I were in Germany for a visit and I wanted to tell you about some sight I had seen, would I try to tell you in bunn German that neither of us could speak or would I talk English? They make me tired."

"But that would spoil the joke," protested the tall young man.

"Huh?" snorted the other. "Some things are too bad to spoil."

And then the incident was considered closed.—Chicago Chronicle.

## How Bright's Disease Starts.

Indigestion, biliousness, blood poisoned with urea and uric acid (which should have been excreted by the kidneys), rheumatic pains in nerves and joints, causing irritation of the kidneys, then pain over the small of the back, mark sure approach of Bright's disease. Do not delay taking Foley's Kidney Cure, for it makes the kidneys right. Take no substitute. Wight & Bro.

## Two True Stories.

The Piscatorial Prevaricator's ascension was in session.

"I was fishing for cod off the Banks one day some years ago," said one, "when I dropped my watch overboard.

The next year I went fishing at the same place. I caught a whopping big fellow and found my watch inside of him. It was running steadily, the action of the fish's liver having kept it wound up. But it was five hours fast. The only way that I can account for it is that the fish crossed the Atlantic, staid on the other side long enough to get the time over there, and that I caught him too soon after he got back to allow the watch to regulate itself."

"I was fishing for trout in Pennsylvania last fall," said another member, "in company with my nephew, who is an inveterate cigarette smoker. We landed a ten pounder and allowed him to founder around in the bottom of the boat while we cast again, because they were biting freely. My nephew had just thrown a lighted cigarette in the boat, and in some way this trout got it, put it in his gills and smoked it. The cigarette seemed to have a soothing effect on him. I brought the trout home, taught him to smoke a pipe, and when we killed him Christmas I served up to my guests something that I believe has never been served up before—self smoked trout. It was great too."—New York Journal.

Ulcers, open or obstinate sores, scalds and l, quickly cured by Banner Salve, the most healing medicine in the world. Wight & Bro.

## The Track Foreman.

The track foreman actually accounts for a greater proportion of the railroad's expenditures than any other employee, because the greatest cost of railroad is in the roadbed, and its equipment and the expense of maintaining it. The track foreman is in fact an important employee, but about the only time a passenger ever sees his unburned face is while he is being whisked by between stations at 60 miles an hour.—New York Sun.

The Neatest Town in the World.

Broek, in Holland, is far famed as the "neatest town in the world." This town is so fastidious that until a few years ago horses were not allowed in its streets for reasons of cleanliness, and the entire town is as scrupulously kept as a man-of-war. It is a village of 2,700 inhabitants, the main industry of which is the making of Edam cheeses.—Boston Transcript.

## Pat's Services.

Clergyman—Pat, there's a hole in the roof of the church, and I am trying to collect money sufficient to repair it. Come, now, what will you contribute?

Pat—Me services, sor.

Clergyman—What do you mean, Pat? You are no carpenter.

Pat—No, but if it rains next Sunday, O'll sit over the hole.—Pearson's.

## A True Picture.

Critic—I must congratulate you on the villain of your play. He leaves the impression of having been drawn from the life.

Author—He was. I may say to you that he is an exact portrait of myself as my wife depicts me.—Brooklyn Life.

## An Uncertain Disease.

There is no disease more uncertain in its nature than dyspepsia. Physicians say that the symptoms of no two cases agree. It is therefore most difficult to make a correct diagnosis. No matter how severe, or under what disguised dyspepsia attacks you, Brown's Iron Bitters will cure it. Invaluable in all diseases of the stomach, blood and nerves. Brown's Iron Bitters is sold by all dealers.

## Character in Thighs.

A man's thighs interest me in any mood and at any time. While you may get a man's character from his face, you can, if you will, get his past life from his thigh. It is the walking beam of his locomotion, controls his paddles and is developed in proportion to its uses. It indicates, therefore, a man's habits and his mode of life.

If he has sat all day with one leg lapped over the other, arm on chair, head on hand, listening or studying—preachers, professors and all other sedentaries sit like this—then the thigh shrinks, the muscles droop, the bones of the ankle bulge, and the knee joints push through. If he delivers mail or collect bills or drives a pack mule or walks a towpath, the muscles of the thigh are hauled tight like cables, the knee of knots—one big bunch just below the strap of his knickerbockers, should he wear them.

If he carries big weights on his back—sacks of salt, as do the stevedores in Venice; or coal in gunnies, as do the coolies in Cuba, or wine casks or coffee in bags—then the calves swell abnormally, the thighs solidify; the lines of beauty are lost, but the lines of strength remain.

If, however, he has spent his life in the saddle, rounding up cattle, chasing Indians, hunting bandits in Mexico, ankle and foot loose, his knees clutched tightly, hugging that other part of him, the horse, then the muscles of the thigh round out their intended lines—the most subtle in the modulating curving of the body.—F. Hopkinson Smith in Frank Leslie's Popular Monthly.

Poisonous toadstools resembling mushrooms have caused frequent deaths this year. Be sure to use only the genuine. Observe the same care when you ask for DeWitt's Witch Hazel Salve. There are poisonous counterfeits. DeWitt's is the only original Witch Hazel Salve. It is a safe and certain cure for piles and all skin diseases. All Dealers.

## The Professor's Prophecy Fulfilled.

While a student at Harvard university Phillips Brooks was walking in the yard one day with a professor, who asked him what he intended making of himself.

"I am thinking of the ministry," answered the youth.

"Then banish such thoughts," said the professor earnestly. "Your manner of speech would forever bar you from being successful in that calling."

Many years later, when Phillips Brooks was one of the world's great pulpit orators, the most expert stenographer in England took down one of his sermons and said:

"Any stenographer who thinks he has conquered fast talkers should try Phillips Brooks."—Ladies' Home Journal.

## He Was Fresh.

"Have you any nice fresh eggs today?" asked the woman with business-like ways.

"Madam," answered the man, who has just started in the grocery business, "permit me to remind you that nice eggs are necessarily fresh and fresh eggs are always nice. Moreover, if I have any, I have them today. My possession of eggs yesterday or tomorrow does not in the slightest degree affect the situation. Therefore, time being precious to a business man, I will simply content myself with replying that I have nice eggs."—Washington Star.

## Oregon.

In the date of admission Oregon is one of the oldest states beyond the Mississippi, entering the Union in 1859. It was the first new state to have the political honor of naming the vice presidential candidate (Joseph Lane) for one of the great parties in the first year of its statehood.

## No Relief for 20 Years.

"I had bronchitis for twenty years," said Mrs. Minerva Smith of Danville, Ill., "and at times have been bedfast. I never got relief until I had taken Foley's Honey and Tar. It is pleasant and gives quick relief, and is a sure cure for throat and lung diseases." Take nothing else. Wight & Bro.

## Went a Little Too Far.

A commercial traveling man landed at Edinburgh, Scotland, one Saturday night, too late to get out of town for Sunday. The next day he found that there was actually no form of amusement in the whole city to assist him in whiling away the day. He went to the proprietor of the hotel to see if he could suggest a way of passing the remainder of the day.

The landlord took pity on the stranger and took him to one of the rooms. In the house in which a number of Scotchmen were playing a game called "nap," which is a sort of modification of "seven up." They were playing for a shilling a point, so that the game was a pretty stiff one. The stranger got in the game and played very cautiously, for he was quite sure that the players, or at least some of them, were cheating. One solemn faced Scot, he was especially sure, he caught cheating a number of times. He began whistling a part of some vagrant tune. The Scot who had been cheating arose from the table and threw down the cards.

"What is the matter?" the other players asked.

"I'm gangin' awa'," the Scot answered, glaring at the stranger. "I'll play cards wi' no mon that whistles on the Sabbath."

## Chamberlain's Cough Remedy a Great Favorite.

The soothing and healing properties of this remedy, its pleasant taste and prompt and permanent cures have made it a great favorite with people everywhere. It is especially prized by mothers of small children for colds, croup and whooping cough, as it always affords quick relief, and as it contains no opium or other harmful drug, it may be given as confidently to a baby as to an adult. For sale by Wight & Bro. and all medicine dealers.

## TURN ON YOUR BACK.

When Exhausted Swimming, Face Upward and You Will Drift Ashore.

A guest at my summer place a few miles from Pablo while bathing was carried out to sea, and when almost out of sight and all hope had fled, to our surprise, we suddenly saw his body impelled forcibly toward us.

Then we saw it recede a few feet, and then again, as it were, shoot 20 feet toward the shore. This continued until my son and myself, at last able to reach him, bore him insensible to the beach.

After recovery his story was that after losing all hope, guided by some mysterious impulse, he had turned upon his back, when he felt himself carried rapidly forward. He had then turned over upon his face to get his bearings, when he was carried out farther from the land, and on again placing himself upon his back the surface waves brought him rapidly to the shore, a rescued man.

It is an error that the drowning man is attacked by cramp except in very cold weather. He drowns from heart failure, induced by the violent exertion and the upward pressure of the water upon the abdomen diminishing the space and impeding the action of the heart. By turning over on the back this pressure is removed, the back being almost entirely a strong wall of bone and muscle; also when on the back the entire body is nearer the surface, and the surface waves tend toward the shore, the undercurrent out to sea, even the legs when upon the back being less exposed to the current that tends toward the sea. By floating gently upon the back, the heart, relieved of its pressure, becomes calm and quiet, and the swimmer can regain his strength and float for hours. The bather whose heart is weak should always present, when standing erect, the right side of the body to the waves and thus avoid the Sullivanlike blows of the incoming waves upon a crippled heart. In every bathhouse should be posted the injunction: "In case of exhaustion or accident turn upon the back."—Jacksonville Metropolis.

## CHINESE MECHANICAL SKILL

A Wonderful Example of Imitative Excellence.

Whatever may be his lack of moral perception and originality of idea, the heathen Chinese certainly excels in imitative power, and is often very much alive to the excellence of mechanical devices that he never saw before. In the American Machinist Oberlin Smith affords an illustration of this fact.

Some years ago Mr. Smith sent Henry A. Janvier to China to assist in the erection and operation of coining plants for brass and silver currency. One of the tools which Mr. Janvier took with him was a micrometer caliper, made by a well known firm in the United States, and capable of detecting differences of a thousandth of an inch in the thickness of a piece of metal. The superintendent of one of the shops which Mr. Janvier established was named Wai, and he proved a very intelligent fellow. During an interval of about six weeks he borrowed the caliper almost daily, and was rather tardy in returning it.

Finally he exhibited to the American a reproduction of the instrument which was perfect except in one respect. Certain tables of figures stamped into the steel by the Yankee maker of the original were omitted from the copy, and in their place were several Chinese characters. The imitation had been made with the ripest of tools, but was a marvel of accuracy. Mr. Wai proposed an exchange to Mr. Janvier, and the latter agreed to the proposition.—New York Tribune.

## The Correct Stroke in Swimming.

The correct stroke of the legs is exactly like that of a frog's hind legs. Watch one of these frogs and copy his style. You cannot do better. The legs are drawn up together slowly, not with a jerk, until they are gathered in close under the body. Then with a sudden, quick spring they are shot out behind, the ankles being turned so that the soles of the feet present as flat a surface as possible to the water and so offer more resistance from which to make progress. As the kick is made the legs should be spread out in the shape of a letter V, but not allowed to sink far down under the surface of the water. If they kick downward at an angle instead of out straight behind much of their energy is wasted in unnecessarily forcing the body out of the water instead of forward through it.—Harper's Bazar.

## Absorb All Knowledge.

Farming has this peculiarity, that it can absorb and supply all knowledge. Not one of the sciences but is related, or may be related, to agriculture. Botany, rightly understood, is the art of growing better potatoes, beans and corn. Entomology is that economic science that discusses what bugs are of use to man and what are injurious. Geology is an analysis of the soils and rocks that underlie the soils for the purpose of making them more available for human warfare.—St. Louis Globe-Democrat.

## Didn't Need Credit.

"You've sent your boy to college, I hear," remarked the neighbor. "Well, I hope he will acquire himself with credit."

"He won't need to, begosh!" said Mr. Gaswell, somewhat irritated. "I'm able to supply him with the cash right straight along."—Chicago Tribune.

## Regretted.

"I might have known better than to trust my money to that broker."

"Why not? Are appearances against him?"

"No, confound him! It's his disappearance."—Brooklyn Life.
